PRICE LIST

The Neosho Nurseries Company

Neosho, Missouri

1928

PRICES: These prices are f. o. b. Neosho and are subject to change without notice. If they included transportation charges, the nearby customer would have to pay more than the actual cost of freight, express or parcel post to make up for the cost of shipping to more distant points.

TERMS: We require 10% of the total amount with the order, the balance before shipment.
When goods are sold on credit, prices are made higher to take care of credit risks.

PREPAID PARCEL POST: For the convenience of our customers we have put in prices by Prepaid Mail. The tops of many items will be pruned before shipment but not as much as you should cut them back after planting.

QUANTITY RATES apply on trees or plants of one class or kind. For instance, 25 apple or crabapple of one or more varieties entitles you to the 25 rate. 25 shrubs of one or more varieties entitles you to the 25 rate. But 5 apple, 5 peach, 5 plum, 5 pear and 5 cherry would take the 5 rate.

TRIPLE THE LIFE OF YOUR GRIMES TREES

by planting our double-worked trees. The Grimes part is budded about 18 inches from the ground on a hardy variety not susceptible to collar-rot. These Double-worked Grimes have roots and stock that are two seasons growth. Prices are the same as for two-year apple.

NOVELTY APPLE TREE

FIVE VARIETIES ON ONE TREE

We have a limited number of apple trees with from 3 to 5 different varieties budded or grafted on as many different branches.

These varieties ripen from early summer to late fall—Duchess, Wealthy, Grimes Golden, Jonathan and Delicious—all dependable, high grade apples.

You can imagine what a beautiful sight one of these trees will present in bearing.

The only pruning you will need to do is to cut back the side branches about one-half their length, head back the leader a little, and shorten any roots that are too long.

These trees are 3 yrs. old with trunks 1 1/2, 3/4 and 1 inch thick.

PRICES—F. O. B. Neosho, cash with order. Satisfaction guaranteed upon arrival.

Fruit trees 1/2, 3/4 and 1, also Dwarf Pear and Quince can be sent by Parcel Post. Add, 8c for single trees, 18c for five trees, 26c for 10 trees, 46c for 25 trees. We will refund any difference if actual postage is less.

SPECIAL QUOTATIONS ON LARGE QUANTITIES: If you require larger quantities than are quoted herein, send us your list, giving the number required of each variety, for our quotation. We make a specialty of supplying orchardists and nurserymen. Address "Wholesale Department."

INSPECTION: Every package bears the certificate of inspection of the State of Missouri, and we also comply with the regulations of other states into which we ship. We welcome rigid official inspection such as is given in some states upon arrival.

GUARANTEE: We guarantee your satisfaction upon arrival of your order. If you should receive any unsatisfactory stock, heel it in subject to our disposal. All claims should be made immediately upon receipt of goods.

TRUE-TO-NAME WARRANTY: The best guarantee of trueness-to-name is the precautions and care we take in handling and labeling our stock. If, however, any tree or plant should prove untrue-to-name, it is understood and agreed that the Neosho Nurseries shall be liable for the sum paid for the stock which may be proven untrue and shall not be liable for any greater amount.

EVERGREENS

Neosho Evergreens are carefully hand dug, the balls of earth wrapped with burlap. Frequent transplantings with root prunings are necessary in the nursery row to develop a mass of fibrous feeding roots within the ball.

OUR GUARANTEE is to deliver good, thrifty specimens that will meet your approval on arrival. There is Positively no guarantee as to growth.

Here are two plants of California Privet. Both are 12 to 18 inches in height. Obviously those with three canes up, such as we furnish, will make a good hedge much sooner than plants with fewer canes.

SHRUBS

These shrubs are well branched except as noted. They run as follows:

- 3-4 ft. have 6 branches and up.
- 2-3 ft. have 4 branches and up.
- 18-24 in. have 3 branches and up.
- 12-18 in. have 2 branches and up.

The 5 rate applies on 5 shrubs of one or more varieties. The same with the 25 rate.

Our Roses
Give Results

Trees and plants differ in habits of growth. For instance, in roses, the Radiance (A) is a stronger, larger grower than Maman Cochet (B). Both plants are good specimens, the kind a customer bought last fall and told us they were larger and better than 14 she bought last year from a distant nursery at nearly three times our price.
